Our social media experts at **AFI International Group** take pride in 'CYBER SLEUTHING'.

As an investigative tool, we can enhance our surveillance efforts by getting to know the subject... as though we have been friends since high school. Through a subject's online presence we can provide valuable information into the validity of claims, fraudulent or otherwise.

Social Media Investigations can assist in:

- Uncovering Evidence of Fraudulent Claims
- Locating Subjects/ Missing Persons
- Confirming Actions that Contradict Work Restrictions/Insurance Claims
- Proving Timelines
- Proving Associations
- Verifying Employment
- Verify Suspicions
- Uncovering Memberships
- Monitoring a Subject's Opinions, Reactions and Criticisms Regarding Specific Events

With Social Media Investigations we can always stay one step ahead.
Meeting the subjects at their destination.
And staying informed of their next move.
